

System House

The monthly review of the financial performance of the UK computing services industry
Index 1993 and 1994 Available by subscription only ISSN 0967-2583

Company Index

January 1993 to December 1994

We are pleased to learn how many *System House* subscribers keep all the back issues in order to build a library on the financial performance of companies operating in the UK software and computing services industry. For this reason, many readers have asked us to produce an index.

This first index covers all mentions of companies in *System House* between the issues dated January 1993 and December 1994. In future we will produce the index annually.

The most detailed reviews of company performance are when we review full year results. These reviews and reviews of interim results are shown in separate columns.

We also index all other mentions of substance. Many of these will be as a result of acquisitions or special corporate events like new issues, profits warnings or, unfortunately, receiverships.

We hope you find the index of value.
