

System House

The monthly review of the financial performance of the UK software and computing services industry

Index

1998 and 1999

Available by subscription only

ISSN 0967-2583

Company Index January 1998 to December 1999

Many *System House* subscribers keep all the back issues in order to build a library of the the financial performance of companies operating in the UK software and IT services industry. This index covers all mentions in *System House* between the issues dated January 1998 and December 1999.

The most detailed reviews of company performance are when we review full year performance. These full reviews - and those relating to interim results - are shown in separate columns.

We index all other comments of substance. Many of these will be as a result of acquisitions or special corporate events like IPOs, profit warnings or, unfortunately, receiverships.

We should point out that the holway.com hotnews site also has a fully searchable archive section going back two years. It - and our new sister internet site www.techmarkresearch.com - are available "free" to all *System House* subscribers.
