

SYSTEMHOUSE

The monthly review of the financial performance of the UK software and IT services industry

COMPANY INDEX JANUARY 2002 TO DECEMBER 2003

We know that many **SYSTEMHOUSE** subscribers keep all the back issues in order to build a library of the financial performance of companies operating in the UK software and IT services industry.

To make this easier, we produce this index, which covers all of the companies mentioned in **SYSTEMHOUSE** between January 2002 and December 2003.

The most detailed information on company performance is in our review of full year results. Details of when these articles appeared – and those relating to interim results – are shown in separate columns. We also index all other comments of substance. Many of these will be as a result of acquisitions or special corporate events such as IPOs, profit warnings or, unfortunately, receiverships.

SYSTEMHOUSE is also available online at ovum.com where subscribers to the Holway@Ovum service can access the archive. Our daily news service, Hotnews is the best way to keep up-to-date with developments as they happen.
