

Hedy Lamarr

She and George Antheil came up with a communication system that helped guide torpedoes in WWII

She is known as the mother of Wi-Fi as her technology paved the way for it

Their technology also helped pave the way for GPS and Bluetooth technology

She and Antheil won the Electronic Frontier Foundation Pioneer award in 1997

Alan Turing

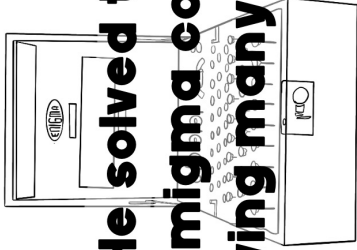

He is known as the father of computer science and artificial intelligence.

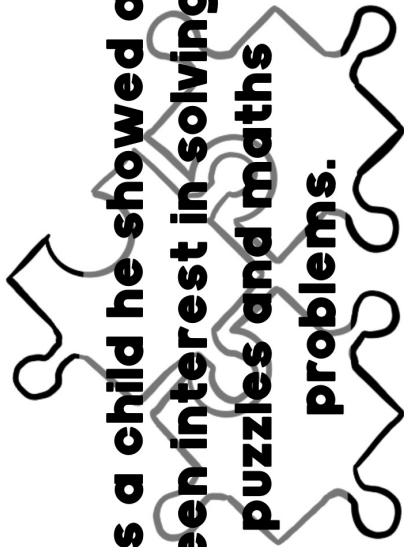

He was a British mathematician and computer scientist.

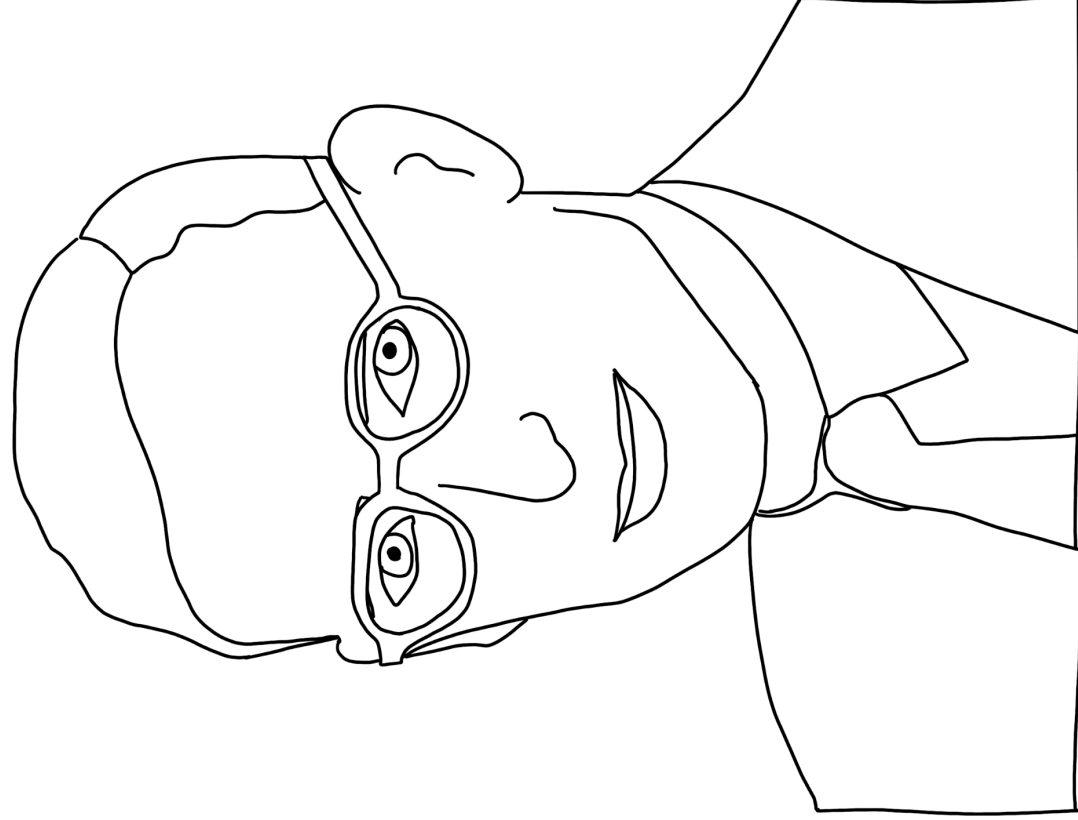

He solved the Enigma code, saving many lives.

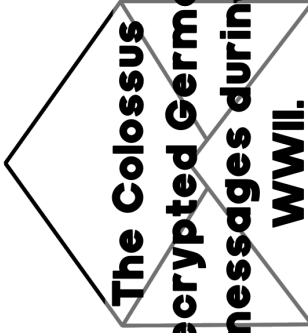

As a child he showed a keen interest in solving puzzles and maths problems.

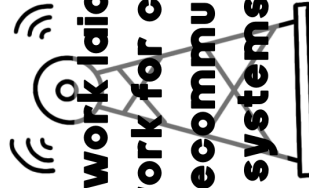

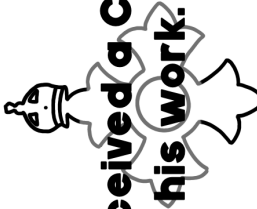

Tommy Flowers

 He designed and built Colossus.

 The Colossus decrypted German messages during WWII.

 His work laid the groundwork for computing and telecommunication systems.

 He received a CBE for his work.
